Why Attend Legislative Day?

The Architects, Engineers and Surveyors Legislative Committee (AESLC) represents the design profession by advocating on your behalf in the Michigan Legislature. In past legislative sessions, we have been able to pass or oppose many pieces of important legislation, for example:

- 2018 Passage of SB 465, Lien Law Improvements
- 2018 Passage of HB 5335, Michigan Infrastructure Council
- 2017 Passage of SB 954, Improvements to Article 20
- 2015 Passage of SB 309, Amendment of the State Condominium Act
- 2014 Passage of SB 1043, Corner Recordation Act
- 2013 Passage of HB 4585, Electronic Seals and Signatures

As the current 2019-2020 legislative session begins, these are some key items we are working on:

- Certificate of Merit Legislation
- Restoration of the Historic Tax Credits
- Transportation Funding
- Infrastructure Funding

In response to input from members of all four AESLC organizations, we will continue to address with Legislators issues which impact design professionals, our business practices and ultimately the health, safety and welfare of the public.

It is essential that we build relationships with our legislators to effectively represent our interests. The best way to do that is by having constituents visit them and explain why the issues are important. Appointments with your legislators will be scheduled and you will be briefed on a variety of discussion topics by our lobbyist the day of the event. There will be an additional chance to meet with Legislators during lunch at the Capitol and a reception at the end of the day.

If you have not attended before, you will be provided with training and be accompanied by peers on your visit. Additionally, a webinar will be presented on March 27, 2019 at noon.
